Remark:	There are more not listed sheet sizes existing (for example the 200 元 was found as pair one side-ways printed).		
Some Background:	The 100 元 and 200 元 stamps where used December 1947 up to April 1948 unauthorized bisected in a small post office in Wangmaozhen (太岳区垣曲县王茅镇) for five months because the rate for a regular letter was 150 元 and the post office runs out of stamps to match the rate with existing stamps. The bisected stamps were sold for half value of thier denominations. After five months it wasn't from official side anymore allowed to use bisected stamps and the small post office stopped this way to create the matching rate. A couple of real delivered letters still existing but they are very rare.
